To whom it may concern:

I have known and worked with JoEllen Taylor for several years now. I have found that she always acts with the highest integrity and ethical standards for her clients. She is always concerned for their well being and I have observed her to treat them with fair play at all times.

She is well thought of with in the ranks of auctioneers across the state and nationally she and Jenelle share sterling reputations.

As a professional auctioneer, she has served on the Florida Auctioneers Association Board of Directors, she has written articles for the Newsletter, she Chairs the Public Relations Committee and has conducted several Auction seminars that were to instruct other auctioneers.

She is also one of the top bid callers nation wide and is on the National Auctioneers Association Presidential Advisory Council

If you have any questions regarding JoEllen or Jenelle Taylor, please feel free to contact me.

Sincerely,

Neal VanDeRee

Florida Auctioneers Association President
